

QUESTIONS FOR REFLECTION AFTER READING CHAPTER 2

1. How is it possible to realize God's intention that the woman and the man should be equal partners? Are there aspects of our view of humanity that we need to work on more?
2. How can we use God's commandment to love our neighbour in order to actively build our relationships with each other, our families, friends, colleagues, foreigners and people with a special need for care?
3. How will we train ourselves to distinguish between truth and falsehood, good and evil? What will we do to become increasingly conscious of using our freedom for the benefit of each other, for our communion of love and for our fellow human beings?
